

# INSTRUCTIONS FOR USE: ANAL PLUGS

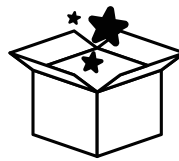

## DIAMOND COLLECTION

### CARE

Wash the toy in warm water and treat it with a special Love Protection toy cleaner before and after each application.

### STORAGE

To avoid damage, keep the plug in its original packaging in a dry, dark place out of the reach of children.

### USAGE

Make sure that your toy is well processed and ready for use before usage.

It is enough to use an anal shower for a comfortable stimulation.

The anus and the toy must be lubricated with a silicone-based lubricant JUJU for soft usage. Anal lubricants guarantee comfort and long-lasting sliding.

If you use a lubricant with a relaxing effect, wait 5-10 minutes until it takes effect.

Holding the anal plug by the restrictive base, gently insert its tip, pointing it up and forward, towards the stomach. Focusing on your feelings, gradually push the plug inside until the anus narrows on the leg of the toy, leaving a restrictive base outside.
